Subject: Carolina Water Service

As you will be voting on the Carolina Water Service's rate increase request this week, I wanted to express once again my hope that you will decline their request for this increase. As a resident in The Landing subdivision of Lake Wylie, we certainly can see no justification for this increase. My neighbors have raw sewage running through their lawns because of an overflowing pump/lift station and as I once again pay my ridiculously high (\$166) monthly water bill, I can see no reason to even entertain such an increase. Please vote no.

Sincerely,

Dianne Kraxberger
